We can supply you with a template if needed or just contact us for more advice - support@theygroup.co.uk - we can also produce artwork for you if needed...

An extra 150mm of bleed is needed at the bottom of the banner so that it slots into the base seamlessly, leaving no white excess. Your main artwork should stay within the 800 x 2000mm area, with any colours/backgrounds bleeding down into the excess 150mm.
